

**DEPARTMENT OF MECHANICAL ENGINEERING, IUPUI
FACULTY FEEDBACK FORM FOR COURSE OUTCOMES SURVEYS**

Note: This form is to be completed and submitted to the department by instructors at the end of each semester based on the survey results of courses taught. It is designed to monitor student learning, keep track of progress and changes made in the program, and allow faculty reflect upon the results. The survey results may be viewed from the department's survey database at <http://www.engr.iupui.edu/me/assessment/fsurveys.shtml>. The completed form is to be emailed to hakay@iupui.edu (note: first save the file locally then email as an attachment).

Course: ME 372	Year: 2006	Semester: Fall
Instructor: Dr. M.A. Badar	Survey Average: 3.89 (Out of 5)	Faculty Average: 5.00 (Out of 5)

- List the outcomes that did not meet the Department's current threshold of 3.75 out of 5.0 and explain the reasons. If all or most outcomes in your course are equal to or above 3.75, please reflect upon on the lowest two or three. Please state the outcomes as fully as possible, as in the course outcomes list, with the numbers same as on the list.

9. Explain the impact of designed mech systems on environment and society, including safety [h]: There is no such specific topic in the syllabus, HW, or book. But any design has to be considered from this aspect and it was emphasized during the class in general.
6. Evaluate the performance of mechanical systems. [b, k1, c1]: I am surprised to see this score.
5. Perform mechanism analysis and simulation using computer tools. [k1, k2, c1]: Again I am amazed.

- Were there any changes made to the course during the semester? If so, explain.

The students' performance was poor in the first test. To adjust to a pace that the students could handle and perform well in the tests, complete syllabus was not covered.

- Are there any recommendations for improvement?

I need to pay extra attention to the above outcome points and also emphasize to the students where and how these points are covered in the course.

- Additional reflections/suggestions for assessment?

Nothing.

Please email to: hakay@iupui.edu. Thanks.
