

**DEPARTMENT OF MECHANICAL ENGINEERING, IUPUI  
FACULTY FEEDBACK FORM FOR COURSE OUTCOMES SURVEYS**

Note: This form is to be completed and submitted to the department by instructors at the end of each semester based on the survey results of courses taught. It is designed to monitor student learning, keep track of progress and changes made in the program, and allow faculty reflect upon the results. The survey results may be viewed from the department's survey database at <http://www.engr.iupui.edu/me/assessment/fsurveys.shtml>. The completed form is to be emailed to [hakay@iupui.edu](mailto:hakay@iupui.edu) (note: first save the file locally then email as an attachment).

Course: ENGR196	Year: 2006	Semester: Spring
Instructor: Peter O. Orono	Survey Average: 4.05 (Out of 5)	Faculty Average: 4.111 (Out of 5)

1. List the outcomes that did not meet the Department's current threshold of 3.75 out of 5.0 and explain the reasons. If all or most outcomes in your course are equal to or above 3.75, please reflect upon on the lowest two or three. Please state the outcomes as fully as possible, as in the course outcomes list, with the numbers same as on the list.

Most of the outcomes met the current threshold of 3.75. The overall average (4.05) was about the same as Fall 2005 (4.09). The ones that did not are,  
 7. Construct simple electrical circuits in an electrical hardware laboratory [b] Avg. 3.17.  
 We had a time constraint at the end of the semester had limited time to do the labs.  
 8. Write short project reports according to specified instructions. [g] Avg. 3.62.  
 This could be improved by providing written instructions on expectations for reports in addition to discussing the expectations.

2. Were there any changes made to the course during the semester? If so, explain.

There were no changes between Fall 2005 and Spring 2006.

3. Are there any recommendations for improvement?

Matlab programming portions of the course will be moved to a different module in Fall 2006. I expect an improvement in the items 7 and 8.

4. Additional reflections/suggestions for assessment?

It would be desirable to assess the impact of the changes to be implemented in Fall of 2006.

Please email to: [hakay@iupui.edu](mailto:hakay@iupui.edu). Thanks.
