

**DEPARTMENT OF MECHANICAL ENGINEERING, IUPUI
FACULTY FEEDBACK FORM FOR COURSE OUTCOMES SURVEYS**

Note: This form is to be completed and submitted to the department by instructors at the end of each semester based on the survey results of courses taught. It is designed to monitor student learning, keep track of progress and changes made in the program, and allow faculty reflect upon the results. The survey results may be viewed from the department's survey database at <http://www.engr.iupui.edu/me/assessment/fsurveys.shtml>. The completed form is to be emailed to cwooton@iupui.edu (*note: first save the file locally, then email as an attachment*).

Course: ENGR 297	Year: 2007	Semester: Spring
Instructor: Peter O. Orono	Survey Average: 4.34 (Out of 5)	Faculty Average: 4.43 (Out of 5)

1. List the outcomes that did not meet the Department's current threshold of 3.75 out of 5.0 and explain the reasons. If all or most outcomes in your course are equal to or above 3.75, please reflect upon on the lowest two or three. Please state the outcomes as fully as possible, as in the course outcomes list, with the numbers same as on the list.

All the outcomes met and exceeded the Department's threshold. The lowest outcome was: 7. Use polynomial curve fitting and interpolation to model data. Avg out come 4.26. One could allocate additional time towards the end of the semester to do more examples on curve fitting and interpolation to strengthen student understanding of the topics.

2. Were there any changes made to the course during the semester? If so, explain.

There were no changes made during the semester.

3. Are there any recommendations for improvement?

No recommendations at this time.

4. Additional reflections/suggestions for assessment?

The outcome survey distributed had typos that need to be corrected before passing out to students.

Please email to Courtney Wooton at cwooton@iupui.edu. Thanks.
