Math 251, Section F7, Summer 1997

Time and Location

MWF 6:15-9:05 pm, Hill 250.
23 June through 13 August, 1997.

Instructor

S. Koskie
Office: Hill 620
email: koskie@math.rutgers.edu

Office hours will be announced at the second lecture.

Grading

Final Exam: 40%
Exam 1 (80 minutes): 20%
Exam 2 (80 minutes): 20%
Quizzes: 20%

Quizzes and exams are closed book and neither calculators nor notes will be permitted. (Some formulae will be given on exams.)

The quiz grade will be determined by taking the top 10 quiz scores. Quizzes are planned for the last ten minutes of lectures 2, 3, 4, 5, 6, 7, 10, 11, 12, 13, 14, 17, 18, 19, and 20. (That’s 15 quizzes.) A quiz not taken receives a grade of zero. It is assumed that students can manage their time so as to be prepared and in attendance for at least 10 quizzes so there will be no makeups. Any exceptions will be made only upon receipt of a note from the appropriate academic dean.

Exams 1 and 2 will count for 100 points each and the final exam will count for 200 points. Exams may be made up only in case of a valid excuse. (“Not being ready” will not be considered a valid excuse.) Excuses should be discussed with the instructor before the exam takes place.

Calculators

Students are encouraged to use graphing calculators, Maple, and any other mathematical software packages available to them in order to help them visualize (and hence understand) the material of the course. However, quizzes and exams will be written so as not to require use of a calculator, hence use of calculators, etc. will not be permitted on quizzes and exams.
